

What I learnt in Week1 was the basics of getting my work ready for the rest of the term and with this I have learnt that having many different add On's to complete my work is beyond annoying and having a good communitive teacher is a live saver, the difficulties that I had in this weeks was dealing the lacking infrastructure of the engineering building not being able to let my devices access the internet but with the help of my teacher I was able to overcome this issue and make it work. The key insights I trained was my coding proficiency and my patience.
